**The College of Biomedical Equipment Technology  
CCER Technology**

"The healthcare industry is advancing at unprecedented speed. To guarantee patient safety, cost savings, and future success, healthcare providers must invest in education. We are partnering with OEM and thirdparty service organizations like Summit and CER Technology to ensure the education we deliver produces graduates with the technological knowledge and skills required to succeed as HTM professionals."

**David W. Braeutigam**

**Chair HTM**

**[dbraeutgam@cbet.edu](mailto:dbraeutgam@cbet.edu)**

**College of Biomedical Equipment Technology**

"Technology has allowed the student to learn a new trade from the comfort of their home by training in an online format. No longer do they have to leave their hometown to go to a traditional brick and mortar school to learn healthcare technology management. Our instructors have decades of experience in operations, medical equipment repair, safety, regulatory requirements, information technology and Cybersecurity to allow them to quickly enter the workforce as a biomedical equipment technician."
